MED Complaint No.: 2025-0125

THIS STIPULATION, AGREEMENT, AND ORDER ("Order") between the Department of Revenue, Marijuana Enforcement Division ("Division"), and Galactic Meds LLC d/b/a Space Buds, Medical Marijuana Cultivation Facility License No. 403-01167, Medical Marijuana Retail Store License No. 402-00766, and Curtis Nathaniel Williams, Owner-Individual License No. M171319 ("Licensees"), is offered for the purposes of settlement and to avoid the uncertainty and cost of future administrative action. The Division and Licensees submit to and agree as follows:

1. The Executive Director of the Department of Revenue as the State Licensing Authority ("State Licensing Authority") has jurisdiction over the Licensees and the subject matter herein pursuant to the provisions of subsection 44-10-201(1)(a), C.R.S.

2. Licensees have been the subject of an investigation conducted by the Division. The Division alleges violations of the Colorado Marijuana Code, sections 44-10-101 *et seq.*, C.R.S. ("Marijuana Code"), and the rules promulgated pursuant to the Marijuana Code at 1 CCR 212-3 ("Marijuana Rules").

3. Pursuant to Marijuana Code subsection 44-10-202(1)(b), the State Licensing Authority has the authority to regulate and license the cultivation, manufacture, distribution, sale, hospitality, and testing of regulated marijuana and regulated marijuana products in the state of Colorado.

4. Pursuant to Marijuana Code subsection 44-10-202(1)(b), the State Licensing Authority may suspend, fine, restrict, or revoke such licenses, whether active, expired, or surrendered, if the licensees violate the Marijuana Code or the Marijuana Rules.

5. Pursuant to Marijuana Code subsection 44-10-901(1), the State Licensing Authority has the power, on its own motion or on complaint, after investigation and opportunity for a public hearing at which the licensees shall be afforded an opportunity to be heard, to fine, suspend, or revoke a license or impose any other sanction authorized by the Marijuana Code or the Marijuana Rules, for a violation by the licensee or any of the agents or employees of the licensees.

6. Galactic Meds LLC d/b/a Space Buds ("Galactic Meds") is licensed by the State Licensing Authority to operate Medical Marijuana Cultivation Facility, License No. 403-01167 ("Medical Cultivation") and Medical Marijuana Store, License No. 402-00766 ("Medical Store") located at 3516 North Tejon Street Colorado Springs, Colorado 80907 and 621 West Colorado Avenue, Colorado Springs, Colorado 80905, respectfully ("Licensed Premises").

7. At the time of the alleged violations, Curtis Nathaniel Williams ("Williams") held Owner License No. M171319, issued by the State Licensing Authority, as the [redacted] Controlling Beneficial Owner of Galactic Meds.

8. The Division and Licensees have come to a mutual agreement and understanding to jointly propose to the State Licensing Authority a resolution of the allegations against Licensees, in lieu of proceeding to hearing to determine the merits of such allegations in an Order to Show Cause.

9. The terms and conditions of this Order are subject to approval by the State Licensing Authority.

10. Licensees admit to the following facts:

    a. Beginning on April 28, 2025, the Division conducted a proactive systematic inspection of Galactic Meds.

    b. On May 7, 2025, the Division had its first contact with Williams, the [redacted] owner of Galactic Meds. At that time it was discovered that Williams' Owner's license (License No. M161917) expired on May 3, 2025. Upon notification of this lapse he applied for a new Owner's license, which was issued on May 14, 2025 (License No. M171319). For eleven days Galactic Meds operated without a valid owner's license.

i. [redacted] transfer was made during that time period from the cultivation to a testing lab; and

ii. Galactic Meds completed [redacted] sales transactions totaling [redacted] grams of Medical Marijuana to patients totaling [redacted] during the time period Williams did not hold an owner's license.

c. Upon inspection of the Marijuana Cultivation and additional follow up requests from Williams and employees, the Division confirmed:

i. Galactic Meds failed to make their Marijuana waste unusable and unrecognizable before placing it in the waste receptacle that was unsecured.

ii. Galactic Meds had not been testing regulated marijuana for all required contaminants before transfer. Galactic Meds' Metrc Inventory Tracking System showed regulated marijuana harvests being tested for microbials, and potency, but no other tests as required. Between May 27, 2024, and April 10, 2025 Galactic Meds, transferred marijuana from approximately [redacted] regulated marijuana harvest batches that had not been tested for all contaminants (elemental impurities, pesticides and water activity). That equated to [redacted] transfers with [redacted] grams of regulated marijuana flower which were being sold at [redacted] different stores. Reduced Testing Allowance was not achieved in any of the required testing areas which could have explained any lack of testing.

iii. When Investigators sought to confirm testing inconsistencies, Galactic Meds' employees were unable to locate approximately [redacted] regulated harvest batches with harvest dates from January 30, 2025, to April 2, 2025, on the licensed premises that were designated as "Unfinished" in Galactic Meds' Metrc Inventory Tracking System. When asked the location of these regulated marijuana harvests, Galactic Meds, LLC owner and employees did not know the location.

d. Division investigators conducted a medical sales check inspection at Galactic Meds' Medical Marijuana Store and found:

i. Galactic Meds failed to obtain and maintain the required Written Authorization form for Extended Plant Count patients.

ii. On-hand inventory was not accurately reconciled. Employees admitted that the store point of sale system and the Metrc Inventory

Tracking System have not communicated in real-time since at least 2022 and inventory had to be reconciled manually.

i. When Galatic Meds was informed of several inconsistencies in the Inventory Tracking System, [redacted] package adjustments had to be made to reconcile the inventory and confirm accuracy.

ii. Galactic Meds did not have the total weight of harvested Regulated Marijuana product on site at the Medical Marijuana Store that was reflected in Galactic Meds' Inventory Tracking System account.

iii. Galactic Meds failed to post a Pregnancy Warning sign in a prominent place at every point-of-sale inside the Restricted Access Area, or anywhere else on the Licensed Premises.

iv. Galactic Meds' employees failed to physically attach the Tangible Educational Resource guide to the patients' receipts of sale, product containers, or exit packaging for each Medical Marijuana Concentrate purchase.

11. Licensees admit to the following violations:

a. Licensees violated Rule 2-280(C) which states, "No Regulated Marijuana Business or Owner Entity may operate or be licensed unless it has at least one Controlling Beneficial Owner who holds a valid Owner License."

b. Licensees violated Rule 3-230(D) which states, "Unless expressly exempt by these rules, all Regulated Marijuana waste must be made unusable and Unrecognizable prior to leaving the Licensed Premises."

d. Licensees violated Marijuana Rule 4-215(A)(1) which states, "A Regulated Marijuana Business shall not Transfer or process Regulated Marijuana, Pre-Rolled Marijuana, Infused Pre-Rolled Marijuana, Regulated Marijuana Concentrate or Regulated Marijuana Product unless Test Batches from each harvest Batch or Production Batch from which that Regulated Marijuana was derived has been tested by a Regulated Marijuana Testing Facility for contaminants and passed all contaminant tests required by this Rule, except as permitted in Rule 5-205(C), 6-205(C), or the cultivation or production process has achieved a Reduced Testing Allowance under this Rule."

e. Licensees violated Rule 5-115(C.5) which states, "When completing a sale of Medical Marijuana Concentrate, a Medical Marijuana Store shall physically attach to the patient's receipt of sale, product container, or exit packaging the tangible educational resource created by the State Licensing Authority regarding the use of Regulated Marijuana Concentrate."
